174

PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; G. W. Harmsen, Groningen; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

Secretary: G. H. Arnold

Assistant Secretary: J. K. Smit

c/o Institute for Soil Fertility

Groningen, Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; F. G. Gregory, London; A. J. de Groot, Groningen; W. R. C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis; L. K. Wiersum, Groningen.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Groningen

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel

CONTENTS — TABLE DES MATIÈRES - INHALT

PAGE

A. A. Abd el Rahman, K. H. Batanouny and Nadia H. Ezzat, Effect of water supply on growth and yield of barley 369

I. P. Abrol and B. S. Pathak, *Short communication.* Self compaction as a factor influencing drop growth in pot studies 151

C. A. Atkins and Y. T. Tchan, Study of soil algae VI. Bioassay of atrazine and the prediction of its toxicity in soils using an algal growth method 432

J. M. Bailey, Chemical changes in a Sarawak soil after fertilization and crop growth 33

Joseph A. Berry and H. M. Reisenauer, The influence of molybdenum on iron nutrition of tomato 303

H. F. Birch and H. W. Dougall, *Short communication.* Effect of a legume on soil nitrogen mineralisation and percentage nitrogen in grasses 292

G. Bond and E. J. Hewitt, *Short communication.* The significance of copper for nitrogen fixation in nodulated alnus and casuarina plants 447

David T. Clarkson, Interactions between aluminium and phosphorus on root surfaces and cell wall material 347

C. H. Dickinson and M. J. Dooley, The microbiology of cutaway peat I. Descriptive ecology 172

D. H. Drew, Mineral nutrition and the water relations of plants III. On the role of mineral salts in the water relations of the leaves 92

A. S. Durge and K. V. Paliwal, *Short communication.* Some aspects of ascorbic acid as a reductant in the estimation of phosphorus 460

JOHN G. A. FISKELL and EUGENE A. BRAMS, Acid extraction of inorganic ions from roots 415

M. J. FRISSEL and P. POELSTRA, Chromatographic transport through soils II. Column experiments with Sr- and Ca-isotopes 20

DAVID JONES and ELLIS GRIFFITHS, Microbiological aspects of soil structure II. Soil aggregation by the extracellular polysaccharide of *Lipomyces starkeyi* 187

PETER J. HARRIS and MALCOLM WOODBINE, Antibiotic resistance of soil bacteria I. Antibiotic resistance of bacteria from rhizosphere and non-rhizosphere soils 167

LARRY R. HAWF and WALTER E. SCHMID, Uptake and translocation of zinc by intact plants 249

N. LAHAV, S. LEVI, A. BRUSSE, Y. CHEN and S. GIL, *Short communication.* Isolation of the equilibrium solution from a wet soil or clay paste 453

SIGURD LARSEN, Isoionic exchange of phosphate in paddy soils 401

D. LASKOWSKI and J. T. MORAGHAN, The effect of nitrate and nitrous oxide on hydrogen and methane accumulation in anaerobically-incubated soils 357

MARGARET W. LOUTIT, J. S. LOUTIT and R. R. BROOKS, Differences in molybdenum uptake by micro-organisms from the rhizosphere of *Raphanus sativus* L. grown in two soils of similar origin 335

A. F. MACKENZIE, W. A. DELONG and I. S. GHANEM, Total sulfur, acetate-extractable sulfur and isotopically exchangeable sulfate in some eastern Canadian soils 408

J. W. MCGARITY and MARGARET G. MYERS, A survey of urease activity in soils of northern New South Wales 217

R. R. MISHRA, Nature of rhizosphere fungal flora of certain plants 162

A. W. MOORE, *Short communication.* Changes in soil moisture and organic matter under different covers at Ibadan, Nigeria 463

C. L. MURDOCH, J. A. JACKOBS and J. W. GERDEMANN, Utilization of phosphorus sources of different availability by mycorrhizal and non-mycorrhizal maize 329

J. NAVROT, B. JACOBY and S. RAVIKOVITCH, Fixation of Zn^{65} in some calcareous soils and its availability to tomato plants 141

LARS N. OVERREIN, Immobilization and mineralization of tracer nitrogen in forest raw humus I. Effect of temperature on the interchange of nitrogen after addition of urea-, ammonium- and nitrate-N^{15} 1

E. A. PAUL and S. P. MATHUR, *Short communication.* Cleavage of humic acids by *Penicillium frequentans* 297

D. PARKINSON and R. PEARSON, Studies on fungi in the root region VI. The occurrence of sterile dark fungi on root surfaces 113

D. PARKINSON and R. PEARSON, Studies on fungi in the root region VII. Competitive ability of sterile dark fungi 120

F. PLHÁK, The effect of quackgrass on succeeding plants . . . 273

K. CHIRANJEEVI RAO, T. N. KRISHNAMURTHY and J. THULJARAM RAO, Cation-exchange capacity of roots and yield potential in sugarcane 314

B. N. RICHARDS, Introduction of the rain-forest species *Araucaria cunninghamii* Ait. to a dry sclerophyll forest environment 201

J. B. D. ROBINSON, The preservation unaltered, of mineral nitrogen in tropical soils and soil extracts 53

P. O. SALONIUS, J. B. ROBINSON and F. E. CHASE, A comparison of autoclaved and gamma-irradiated soils as media for microbial colonization experiments 239

B. SCHIPPERS, M. N. SCHROTH and D. C. HILDEBRAND, Emanation of water from underground plant parts 81

D. A. VAN SCHREVEN, *Short communication.* Influence of seed disinfection with AAmertan on rhizobial inoculation of *Medicago lupulina* L 443

KARL H. SCHÜTTE. *Short communication.* The influence of boron and copper deficiency upon infection by *Erysiphe graminis* D.C., the powdery mildew, in wheat var. Kenya . 450

MEIER SCHWARTZ, *Short communication.* Foam plastic, a commercial plant growth medium 289

P. SIMONART, L. BATISTIC and J. MAYAUDON, Isolation of protein from humic acid extracted from soil 153

M. A. SINDHU and A. H. CORNFIELD, *Short communication.* Comparative effects of varying levels of chlorides and sulphates of sodium, potassium, calcium and magnetism on ammonification and nitrification during incubation of soil 468

THEODORE W. SUDIA and DAVID G. GREEN, The effect of the light on the redistribution of Sr^{90}, Cs^{134} and Zn^{65} in the germinating seeds of soybean, (*Glycine max* (L) Merr) . . . 103

HIROFUMI TANAKA, *Short communication.* Boron adsorption by plant roots 300

A. THROUGHTON, *Short communication.* Effect of sodium chloride on the growth of *Lolium perenne* 148

G. TROLLDENIER, *Short communication.* Isolierung und Zählung von Bodenactinomyceten auf Erdplatten mit Membranfiltern 285

V. VANČURA, Root exudates of plants III. Effect of temperature and 'cold shock' on the exudation of various compounds from seeds and seedlings of maize and cucumber . . 319

V. N. VASANTHARAJAN and J. V. BHAT, Interrelations of soil micro-organisms and mulberry I. Phytohormone production by soil and rhizosphere bacteria and their effect on plant growth 261

JAMES VLAMIS and D. EMERTON WILLIAMS, Manganese and silicon interaction in the Gramineae 131

L. K. WIERSUM, Potential subsoil utilization by roots 383

J. D. H. WILLIAMS and T. W. WALKER, *Short communication.* Comparison of 'ignition' and 'extraction' methods for the determination of organic phosphate in rocks and soils . . . 457
